AUTOMATED INFORMATION SYSTEM (AIS) PERSONNEL SECURITY PROGRAM REQUIREMENTS
N00039-01-C-2254

The U.S. Government conducts trustworthiness investigations of personnel who require access to only unclassified information and who perform AIS duties. Requirements for these investigations are outlined in paragraphs 3-614, 3-710 and Appendix K of DoD 5200.2-R, available at <http://www.ntis.gov/product/dod-directives.htm>. Falsification of information submitted for any government-conducted investigation may result in contract default. The contractor shall include all of these requirements in any subcontracts involving AIS support.

Personnel performing work on AIS may be either a U.S. citizen or a Permanent Resident (except as noted below). A Permanent Resident is defined as a foreign national lawfully admitted to the United States for permanent residence. These personnel shall be designated as filling one of the three AIS Categories listed below. The Contracting Officer's Representative (COR) or Technical Representative (TR) shall determine if they or the contractor shall assign the AIS category to contractor personnel and inform the contractor of their determination. If it is decided the contractor shall make the assignment, the COR or TR must concur with the designation.

AIS Category I (High Risk) – may be filled by U.S. citizens only. Positions in which the incumbent is responsible for the planning, direction, and implementation of a computer security program; has a major responsibility for direction, planning, and design of a computer system, including the hardware and software; or can access a system during the operation or maintenance in such a way, and with relatively high risk for causing grave damage or realizing significant personal gain. Personnel whose duties meet the criteria for AIS Category I designation require a favorably adjudicated Single Scope Background Investigation (SSBI) or SSBI Periodic Reinvestigation (SSBI-PR), the updated standard for the BI listed in DoD 5200.2-R. The SSBI or SSBI-PR shall be updated every 5 years.

AIS Category II (Moderate Risk) - positions in which the incumbent is responsible for the direction, planning, design, operation or maintenance of a computer system, and whose work is technically reviewed by a higher authority at the AIS Category I level to insure the integrity of the system. Personnel whose duties meet the criteria for an AIS Category II designation require a favorably adjudicated National Agency Check (NAC), instead of the DNACI/NACI listed in DoD 5200.2-R.

AIS Category III - all other positions. Personnel whose duties meet the criteria for an AIS Category III designation require a favorably adjudicated NAC.

If an employee has a personnel security investigation at the appropriate level without a break in service for more than 24 months, with favorable adjudication, and in the case of AIS Category I is less than 5 years old, you do not need to submit an additional Electronic Personnel Security Questionnaire (EPSQ) for the trustworthiness determination. If required, the contractor will ensure personnel designated AIS category I, II, or III complete the EPSQ Standard Form (SF) 85P and provide it to their company's designated reviewer for an initial suitability determination. The reviewer will use the criteria outlined in Appendix G, SECNAVINST 5510.30A to make this initial determination. If, based on this initial review, the contractor gives the employee a negative trustworthiness determination the contractor will identify a replacement to the COR or TR and direct the replacement to complete the EPSQ. For personnel the contractor deems suitable, the designated reviewer will submit their EPSQs to the Office of Personnel Management (OPM). OPM is accepting **only** printed SF 85Ps. They should be mailed to U.S. Office of Personnel Management, Federal Investigations Processing Center, P. O. Box 700, 1137 Branchton Road, Boyers, PA 16018-0700. Investigative packages shall be submitted for all personnel in AIS Category I, II, or III prior to the employee being granted access to the AIS. For additional assistance please visit our web site at <https://www.spawar.navy.mil/sandiego/security/guidelines.doc>.

Specific guidelines for obtaining software and submission of EPSQs are available at the Defense Security Service (DSS) Internet Web Site at <http://www.dss.mil>. If you are unfamiliar with the EPSQ SF85P, you may contact your local DSS Office for further information.

Investigation results shall be returned to SPAWARSYSCEN San Diego, Code D0351, 53560 Hull Street, San Diego, CA 92152-5001 for a trustworthiness determination. SPAWARSYSCEN San Diego will notify the contractor of its decision. The contractor will promptly replace any individual for whom SPAWARSYSCEN San Diego has communicated a negative trustworthiness determination.

The contractor will include the AIS Category for each person so designated on Visit Authorization Letters (VAL) once the COR or TR has approved the Category. VALs will be sent to the following address: Commanding Officer, SPAWARSYSCEN San Diego, ATTN: Code D0352, 49275 Electron Drive, San Diego, CA 92152-5435.
